CH. CHARAN SINGH UNIVERSITY, MEERUT

A 3-day Seminar-cum-Workshop on “**Bioresource Conservation and Utilization**” is being organized at C.C.S. University, Meerut during **March 27-29, 2009** for the teachers of different disciplines of Life Science from the Colleges and Universities of U.P.

Objective: To update the teachers regarding the state of art of various bioresource conservation programmes of the country, besides alternative means to rationalize the utilization of existing indispensable bioresources.

Ever since the man came into existence, he has been dependent on nature and natural resources for his varied needs. The variety and variability among biological organisms, whether it is plant, animal or microbe, is the hallmark of evolutionary process and part and parcel of growth and development. However, the resources are definite and need to be utilized carefully. This is well known that the world is undergoing a severe crisis of bioresources and there is an immediate need to find alternatives for meeting the requirements, besides efforts must be made for proper conservation of the existing bioresources.

Modus operandi: Reputed scientists of different disciplines of Life Science, such as Botany, Zoology, Genetics and Plant Breeding, Horticulture and Microbiology, will deliver lectures pertaining to the theme in the forenoon sessions. The lectures will be followed by practical demonstrations/exhibitions in the afternoon sessions for the participants.

Application/Participation: Only limited teachers can be accommodated to take part in the Workshop, hence the applications will be screened by the Organizing Committee. Selected participants will be provided TA/DA, boarding, lodging and hospitality as per UGC norms. Applications, on plain paper mentioning necessary details duly forwarded by the Head/Principal, are invited to reach **Prof. Y.Vimala, Department of Botany, CCS University, Meerut-250004** (email- yvimala@gmail.com), latest by **March 16, 2009**.
