Organises an

INTERNATIONAL CONFERENCE

on

**BLENDED LEARNING APPROACH IN
TEACHER EDUCATION**

DECEMBER 01 – 02, 2023

(In Blended Mode)

In Collaboration with

CONSTANTINE THE PHILOSOPHER UNIVERSITY
IN NITRA, SLOVAKIA

ABOUT THE CONFERENCE

With the advent of modern Information and Communication Technologies (ICTs, the term 'Blended Learning' has been gradually gaining its importance) in educational sphere. Blended learning is learning approach that aims to purposefully integrate online learning tools with the conventional face-to-face teaching-learning methods. The "blend" of blended teaching often includes different technology tools, pedagogic strategies, and learning experiences. Such type of learning approach is very much flexible in nature, cost-efficient and easily accessible. Therefore, it provides a wonderful promising opportunity for all to benefit. In recent times, the teaching-learning process has been continuing through blended mode at some stages of education. Blended learning is being encouraged always that aims to instill required techno-pedagogical skills for imparting education effectively as well as for participating in any sort of learning activities properly. Existing curriculum of higher education especially teacher education programme must be judiciously framed to integrate blended learning practice. It is required since modern Information and Communication Technologies constituted a very vital and integral part of the contemporary world in education system. Information and Communication Technologies are now being widely accepted in higher education for effective delivery of the course content leading to the desired outcomes of student learning.

According to National Education Policy (NEP) 2020, India the new methods of teaching and learning process must incorporate adequate Information and Communication Technologies for proper acquisition of knowledge. Such an educational transformation leads to a life-long learning process that gives greater emphasis on the notion of multiple entry and exist in order to create the educational system more flexible for all through merging various modes of teaching-learning process. Blended Learning method appears to be one of the effective approaches that can make efficient curriculum transaction in teaching-learning process. Such approach in Teacher Education is very much required to improve the competence of the teachers in managing online learning activities together with conventional form of learning. It has been observed from various studies and review of related literatures that despite of various shortcomings, blended learning approach can enhance interest and curiosity of the learners and can be an effective method of teaching practice also considering the resources available and the existing curriculum.

The Department of Education, Chaudhary Charan Singh University, Meerut, India feels proud to organize the INTERNATIONAL CONFERENCE on "BLENDED LEARNING APPROACH IN TEACHER EDUCATION" on 01st & 02nd December, 2023 in collaboration with Constantine The Philosopher University, In Nitra, Slovakia . All delegates/research scholars/students are cordially invited to participate or present a paper in this International Conference.

ABOUT INDIA

India, the seventh largest country by area, the fast-growing economy in South Asia is home to the ancient Indus Valley Civilization and a region of historic trade routes and vast empires. A pluralistic, multilingual and multi-ethnic society, the country is also home to a diversity of wildlife in a variety of protected habitats. It is bounded by the Indian Ocean on the south, the Arabian Sea on the south-west, and the Bay of Bengal on the south-east.

ABOUT THE CITY "MEERUT"

Historical evidences predict that the city Meerut may have derived its name from 'Maya Rashtra, the capital of the kingdom of Mayasura, Mandodari's father and Ravana's father-in-law. Meerut was the capital of Padnavas in Mahabharata known as Hastinapur.

Meerut is the city that bears testimony to the great rebellion of 1857, the first war of independence. It is an ancient city located 66 km north-east of New Delhi. Meerut also has one of the biggest army garrisons / cantonments in this part of the country. Meerut is famous for its scissors, sports goods and Gazak. Meerut is also the sports

capital of India. The city boasts of some very important historical as well as cultural heritage sites like Aghornath temple, Shaheed Smarak, Gandhi Bagh, Suraj Kund, Shri Shantinath Digamber Jain Temple, Vidura Ka Tila, Draupadi Ki Rasoi, Pandav Quila, Hastinapur, and many more.

Meerut city is well connected with different cities of India by Road, Railway and Air. Nearest Airport is Indira Gandhi International Airport, New Delhi. Nearest Railway Station is Meerut City. In December, temperature of Meerut City will be 15°C to 20°C.

ABOUT THE CH. CHARAN SINGH UNIVERSITY

Chaudhary Charan Singh University (formerly, Meerut University) was established in 1965, to cater the needs of higher education in society. The University celebrated its golden jubilee in 2016. The University recently accredited A++ by NAAC, Bangaluru, India. Presently, it is one of the premier educational institutions of the country encompassing a vast, beautiful and pollution-free campus which sprawls over 222 acres of land. The university is functioning with the vision to produce such professionals who may have global competence, vision and skills as are necessary to meet the challenges of emerging global knowledge economy, by the power of innovation, creativity and efficient learning ability. The mission of the university is to emerge among the top ten university in India within next ten years through defining , implementing and operating dynamic-academic, administrative and functional processes, for optimal use of available resources.

ABOUT THE DEPARTMENT OF EDUCATION

The Department of Education had its inception in 1970. It was the only department in India that introduced M.Phil. Education Programme for the first time in 1970. This was followed by introduction of M.Ed. programme in the year 1974. Along with these courses, the department also offers Ph.D. programme in Education. The department has also been granted the status of Centre of Excellence by Government of Uttar Pradesh in 2016. The department has constantly focused upon to produce competent, committed and responsible teacher educators and quality researchers. The department has also taken lead to produce innovative and quality researches. The major thrust areas of research in the department are teacher education, educational technology, educational psychology, and curriculum studies etc.

ABOUT CONSTANTINE THE PHILOSOPHER UNIVERSITY, SLOVAKIA

Constantine the Philosopher University in Nitra is a modern educational, scientific and artistic institution that bears the name of one of the most important personalities in the history of Nitra and Slovakia – Constantine the Philosopher (St. Cyril, 827 – 869). Its mission is to develop a harmonized personality, spread knowledge, wisdom, honesty and human creativity and contribute to the development of education, culture and health for the benefit of a

knowledge-based society. In fulfilling its mission, the main goal of UKF is to provide university education, promote creative scientific research and encourage artistic activities.

UKF has five Faculties and 7029 students, of which 5562 are enrolled in full-time study. The University is also attractive for foreign students. The University employs 935 employees. These include 564 teachers and researchers, of which 78 are professors and 146 associate professors. The wide range of programs in the Bachelor's, Master's and Doctoral study is a key strength of our University. This particularly concerns the 6 accredited single-major and 29 double-major teacher training study programs, 68 Bachelor's and 49 Master's study programs and 37 Doctoral study programs. The University also provides lifelong education, particularly as complementary pedagogical study, extended study and interest study within the Third Age University.

Research is one of the key activities at the University. Its aim is to receive and present original research findings for the development of general knowledge, and it also includes the activities aimed at efficiently linking the scientific research with education and supporting the professional growth of its employees. Scientific research is carried out in particular through the solution of research, cultural, educational and other projects, with scientific and professional publications as its key output. UKF is also focusing on student work, and is known for numerous cultural, social and sporting events and student activities, many of which with long traditions.
